[\[GarminUnlockerAlternative V5.2.zip\]](#)

```
I created a custom command line install directive  
msiexec /passive TARGETDIR="C:\MyTargetDirectory" /i MyProject.msi  
And was able to get the desired path pre-populated!
```

To install in this folder, click "Next". To install to a different folder, enter it below or click "Browse".

Folder:	<input type="text" value="C:\MyTargetDirectory\"/>	<input type="button" value="Browse..."/>
		<input type="button" value="Disk Cost..."/>
